

US Customs HTSUS (Harmonized Tariff Schedule of the United States) subheading 9801.00.10 provides for duty-free entry of articles that meet the following criteria:

- 1) Confirmed to be products of the United States;
- 2) Exported and returned to the US without having been advanced in value or improved in condition by any process of manufacture or other means while abroad; and
- 3) **Supported by the special declarations and documents here: Commercial Invoice, Manufacturer's Affidavit, Export Bill of Lading, AES, Foreign Shipper's Declaration, and Importer's Declaration**

Most of the goods shipped from Varian Medical Systems in Salt Lake City, UT are manufactured at our facility in the United States.

In order to utilize this duty-free entry provision, Varian Medical Systems is requesting that our customers use the Commercial Invoice supplied by Varian at the time the RMA is issued for all returns. Additionally, we are requesting that a company official or appropriate individual sign the Foreign Shipper's Declaration located at the bottom of the Commercial Invoice.

Please contact Varian Medical Systems, X-Ray Products if there are any questions.
